

FIG. 1A

FIG. 1B

FIG. 1C is a schematic diagram of a device 100 in a square coordinate system. The device 100 includes four circular components 102 arranged in a 2x2 grid. Each component 102 has a central circular feature 106. A dashed line 108 represents a horizontal axis passing through the center of the components 102. The x-axis is labeled with -2, 0, and 2, and the y-axis is labeled with 0 and 2.

FIG. 1C

FIG. 2A

FIG. 2B

FIG. 2C is a graph of the phase error distribution. The x-axis is labeled "Degrees" and ranges from -40 to 40. The y-axis is labeled "Density" and ranges from 0 to 800. The curve shows two peaks, one at approximately -15 degrees and another at approximately 15 degrees, both reaching a density of about 600. The curve is zero for values less than -25 and greater than 25.
